

# SC 120

## Electric Drive

30 kW

## Output potential

90 US ton/h

SC 120	
Length	8' 2"
Height	3' 5"
Width	8' 3"
Weight	12,000 lbs

# SC 160

## Electric Drive

37 kW

## Output potential

130 US ton/h

SC 160	
Length	10' 8"
Height	3' 5"
Width	8' 3"
Weight	16,000 lbs

# SC 200

## Electric Drive

44 kW

## Output potential

200 US ton/h

SC 200	
Length	11' 8"
Height	3' 5"
Width	8' 3"
Weight	20,000 lbs

# SC 260

## Electric Drive

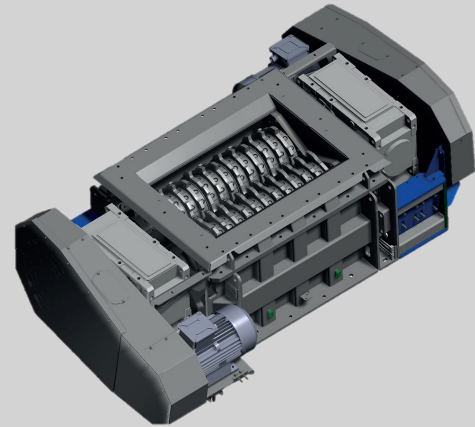

60 kW

## Output potential

280 US ton/h

SC 260	
Length	12' 8"
Height	3' 5"
Width	8' 3"
Weight	26,000 lbs

CAMS™ SC RANGE is designed and manufactured in compact size. Powered by electric energy, it reaches the highest outputs without fuel consumption. Thanks to the low rotating speed of the shredding shafts, it produces low dust and acoustic emissions.

ELECTRIC DRIVE

## FEATURES

- Built-in specific shredding programs depending on the type of material
- Ability to process wet material
- Compact transport dimension
- Low wearing
- Low dust and acoustic emissions

## OPTIONS

- Patented hydraulic pusher system
- GPS
- Electrical weighing system
- Electrical grease pump
- Magnetic separator
